Work Experience

Website Developer Ait Technology Company
september, 2025 to january, 2025]
laravel Developer

- Contributed to the development of a Sales Order Management System using Laravel, enhancing sales and inventory management processes.
- Played a key role in building web applications with Laravel, implementing features such as role-based access control, CRUD operations, and integrating APIs.
- Collaborated with cross-functional teams to ensure seamless development and deployment of projects.
- Worked on data tables and used SweetAlert for better user feedback.

Frontend Developer:

- Contributed to multiple web projects, collaborating with clients to create responsive and user-friendly websites.
- Worked with React.js for the development of dynamic and scalable applications.
- Integrated API services and optimized front-end performance.

Education History

Electrical and Computer Engineering | Addis Ababa University
Class of 2025

Cisco Certified Network Associate (CCNA)
Issued by Cisco | may 6 2024

Relevant Skills

Frontend Development

- React.js: Building dynamic, single-page applications (SPA) using React, React Router, State Management (Redux/Context API), and Component-based architecture.
- Vue.js: Developing interactive UIs with Vue.js, leveraging Vue Router, Vuex for state management, and Vue components for modular development.
- HTML/CSS: Creating responsive layouts using HTML5, CSS3, and preprocessors like Sass or Tailwind CSS.
- JavaScript (ES6+): Advanced JavaScript, including ES6+ features, Asynchronous Programming, and DOM Manipulation.
- UI/UX Design: Knowledge of responsive design, ensuring mobile-first, cross-browser compatibility, and modern UI frameworks like Tailwind CSS.

Backend development

- Laravel: Developing full-stack web applications with Laravel, utilizing Eloquent ORM, Blade templates, and RESTful APIs.
- Node.js: Creating scalable backend systems using Node.js with Express.js for routing, MongoDB for databases, and JWT for authentication.
- APIs & Integrations: Building and consuming RESTful APIs
- Authentication: Implementing JWT, OAuth, and Laravel Passport/Sanctum for secure user authentication.
- Database Management: Managing databases with MySQL, MongoDB, and Sequelize ORM.

Frameworks and Tools
